WHO WE ARE

With a vision for a greener world, RocketEV is a key player in building a sustainable and practical network of EV charging stations nationwide. RocketEV prides itself on its ability to provide full turnkey solutions that are efficient, of high quality and economical.

We are your dealership's trusted EV installers Canada wide.

With over 40 years of combined experience in the electrical and automotive industries, RocketEV is best equipped to make your transition to electric a seamless one.

1 Purchase your vehicle at the dealership.

2 Book your FREE consultation at www.rocketev.ca

Scan here to book now!

3 RocketEV conducts a site assessment and provides a quote.

4 Once the quote is accepted, we complete the installation.

THE PROCESS

NO HIDDEN COSTS

During your site inspection, our technician will inform you of everything your home will require to successfully complete the install.

If your home requires extra material and labour, the items will be added accordingly, and will always be included in the quote.
